Frequency of Reporting

Each dispenser shall submit the required fields to the data repository at least once every day unless the board waives this requirement for good cause shown by the dispenser.

Is Zero-Fill Reporting Required?

Yes

Required Information

The prescriber may be the same as the dispenser if he or she is the person who ordered the prescription and uses his or her DEA number to purchase drugs for the facility. Do not register multiple dispensers for your facility if only 1 DEA number is purchasing all drugs used for your location. If a provider within the practice dispenses using the clinic's stock and is not the owner of the drugs, they will need a power of attorney on file to use the medications kept within the facility
